

DAMIR OVCINA

WORDPRESS AND HOSTING SPECIALIST

ABOUT ME

I have always wanted to work in the IT sector and delve deeper into the world of programming, as programming is more than just a job to me – it's my passion and a way to express creativity. Programming languages like HTML, CSS, and JavaScript are not just tools for me, but an opportunity to create and enhance the digital world. I am motivated by the dynamism and the opportunity for continuous learning in the IT sector. I chose WordPress as the starting point for my IT journey due to its wide usage, accessibility for beginners, and the possibility for rapid development and implementation of websites.
